### TEMPORARY STANDPIPE HIRE IMPORTANT INFORMATION

60mm standpipes can only be used at designated filling points on the Bristol Water network. A full list will be given at time of rental. It is also available on the web site [www.bristolwater.co.uk](http://www.bristolwater.co.uk).

Consideration of new filling points will be given to long-term hires where closer points would be beneficial to the user (there will be a charge for setting this up).

**All standpipes are metered and water used will be charged at the current Bristol Water rate.** Equipment can be delivered across the region. There is a charge for this service.

### IMPORTANT

Connecting to the Bristol Water Network using equipment other than that supplied by Daniel is **ILLEGAL** and could lead to prosecution. Any reported use of non-authorized equipment will be stopped immediately and appropriate actions taken.

**Anyone found to have caused damage to the mains network will be held fully liable and Bristol Water will look to recover the costs of repairing this damage.**

Using an **ILLEGAL** standpipe constitutes the crime of theft of water from Bristol Water.

**Daniel are Bristol Water's sole appointed supplier**
