

APPLICATION FOR MAINS

Application notice to Bristol Water for the provision of new water mains to a development site – Sections 41, 51A and 55 of the Water Industry Act 1991

Office use only

Job No:

Please return this form with supporting documents.

1. Requisitioner/Applicant (the applicant must be the owner and/or occupier of the site)

Company name:

Contact name (if different from name given on left):

Address:

Telephone number (including dialling code):

Fax number (including dialling code):

E-mail address:

Postcode:

2. Site address details

Site name or description of location:

Site contact name:

Road name:

Site telephone number (including dialling code):

Town/village:

Site fax number (including dialling code):

County:

E-mail address:

Postcode:

Site mobile telephone number:

OS Ref at site entrance (6 figures each):

X	Y
---	---

If you have made a previous development enquiry regarding this piece of land, please provide our reference:

3. Consultant/Agent acting for requisitioner, if applicable

Company name:

Contact name (if different from name given on left):

Address:

Telephone number (including dialling code):

To whom should we send our correspondence?

Postcode:

 Requisitioner/Applicant

 Consultant/Agent

Application notice to Bristol Water for the provision of new water mains to a development site – Sections 41, 51A and 55 of the Water Industry Act 1991

4. Site history

Details of the previous use of the site are required so that we can determine whether there may be any contaminants in the soil that will influence the pipe material to be laid or affect any personnel working on the mains installation. A soils analysis report must be submitted for all sites that have been developed in the past, together with any other site which we suspect is likely to be contaminated. If certain types of contamination are found to be present, connection may be refused until protective measures or remedial action has been undertaken by yourselves.

Was the site previously used for: greenfield/agricultural? housing? industry? landfill?

Other, please specify

Is there any evidence that material (made ground) has been imported on to the site? Yes No

Have any pollution events occurred at or near the site? Yes No

If 'yes', please give brief details:

Are any adjacent sites known to be contaminated? Yes No

If 'yes', please give brief details:

5. Previous water usage

Are there any 'live' water supplies on the site? Yes No

Have there been any other properties on this site (such as those that have now been demolished) that have had a 'live' water supply within the last five years? Yes No

Previous occupier of the site, and their current contact details:

Please provide details of the total number of fittings in properties on the site that have had a water supply within the last five years:

Bath	<input type="text"/>	Shower cubicle	<input type="text"/>	Sink	<input type="text"/>
Basin	<input type="text"/>	Water heater	<input type="text"/>	Bidet	<input type="text"/>
WC	<input type="text"/>	Clothes washer	<input type="text"/>	Hosetap	<input type="text"/>
Urinal	<input type="text"/>	Dishwasher	<input type="text"/>	Sprinkler	<input type="text"/>

Please provide details of the nature of any usage on the site in the last five years, ie restaurant, manufacturing, nursing home etc.

Application notice to Bristol Water for the provision of new water mains to a development site – Sections 41, 51A and 55 of the Water Industry Act 1991

6. Water mains construction details

On what basis would you like the water mains to be installed?

Lay only (developer to excavate and backfill on site) *Go to Section 7*

Bristol Water to excavate and backfill on site *Go to Section 7*

Self-lay *Go to Section 8*

7. Phasing

Will all site roads be constructed to allow Bristol Water to complete mainlaying in one continuous installation? Yes No

If 'no', please indicate the extent of each of the installations on your accompanying site plan.

On what date do you envisage the site being ready for uninterrupted mainlaying?

Go to Section 9

8. Self-lay

Please note that the details given here must refer to an installer accredited through the Water Industry Registration Scheme (which is administered by Lloyds Register).

Accredited Self-Lay Organisation (SLO)

In making this application I am aware that:

- the terms and conditions of the Bristol Water Self-Lay Policy will apply;
- the developer and his self-lay contractor must comply with the terms and conditions of the self-lay policy;
- the developer will be expected to make good any shortfall between the cost of providing the new main and the income from the properties that are to be connected;
- the water mains/services cannot be connected until the work is accepted by Bristol Water;
- where services are to be laid, the developer shall be responsible for all payments due when the connection is made. This will include an administration fee together with the infrastructure charges;
- all work must comply with the current edition of the Code of Practice for the Self-Laying of Water Mains and Services - England and Wales, published by the Water Research Centre, and the Bristol Water Addendum to that Code of Practice.

Application notice to Bristol Water for the provision of new water mains to a development site – Sections 41, 51A and 55 of the Water Industry Act 1991

10. Land ownership

Will you be the land owner when the water mains are laid?

Yes No

If no, please provide details of the land owner:

Name:

Address:

Contact name (if different from name given above):

Postcode:

Will any of the site roads, footpaths, verges or service strips be adopted by the Highway Authority?

Yes No

If yes, please indicate the extent of the area to be adopted on your accompanying site plan.

11. Planning permission

Do you have full finalised planning approval?

Yes No

If yes, please give approval reference number:

12. Further information

Please give details of anything not covered elsewhere on this form that may affect the normal installation of water mains or services. This could include, but should not be limited to: details of non-standard drainage structures; details of surface levels (existing or alterations to); details of tree planting; any environmental considerations; and, where the layout is to deviate from the National Joint Utilities' Group's guidelines, details of how you propose to accommodate all services.

Application notice to Bristol Water for the provision of new water mains to a development site – Sections 41, 51A and 55 of the Water Industry Act 1991

13. Checklist

Please note that incomplete submissions will be returned, which will delay the installation.

To enable your application to be processed swiftly, please ensure that you have completed all the questions on the application form and use the checklist below to capture any supporting documentation we may require.

Please check that you have:

- (a) enclosed a suitable location plan showing the site
- (b) enclosed a blank site layout plan at scale 1:500, 1:250, 1:200 or 1:100
- (c) enclosed a site layout plan (or plans) showing:
- areas to be adopted as public highway
 - drainage details
 - service pipe layout showing boundary box/meter positions and point of entry to property
 - the phasing of the installation, if multiple visits are required
 - service strips, if applicable
 - other utilities' apparatus (if known)
- (d) enclosed a soil analysis report, if applicable (Section 4 refers)
- (e) enclosed a schedule detailing plot numbers and pipe sizes, if other than 25 mm service pipes to be installed
- (f) enclosed the application fee – see Developers' Charter

14. Authorised signature *(must be the applicant)*

Please create a proposal for installing new water mains for domestic and/or non-domestic purposes for the above named development and advise me of the scheme's details and estimated cost together with the likely lead-in times. I have provided all relevant information detailed on this form and will provide any reasonable additional information if requested to do so by Bristol Water.

I confirm that:

- I am the owner and/or occupier (delete as applicable) of the land or existing premises for which the mains are being requisitioned.
- I understand that the submission of this form does not commit me or Bristol Water in any way.
- I understand that my design fee may be taken into account when calculating the financial terms offered on any resulting mains scheme but that my fee will not be refunded if the mains requisition does not proceed.
- If, following the provision by Bristol Water of the proposed mains layout and associated estimated cost, I require revised or alternative layouts and estimates for the above named development, I will pay Bristol Water any costs they may reasonably require in advance of such work being undertaken.
- I understand that I will have to apply for the service connections on this site separately and that the relevant "Application for Supply" form or forms will be sent to me with the details of the mains scheme. I understand that following the completion and return of my "Application for Supply" form(s) I will be advised of the service connection and infrastructure charges that will be payable.
